Call for Workshops – Share Your Expertise!

ICA Commissions and Working Groups are invited to submit their workshop proposals that encourage knowledge sharing and collaboration.

Workshop organisers will be responsible for developing the programme, managing registrations, selecting presentations and communicating with participants.

Workshops are scheduled for **Sunday, 18 July 2027**, at Warsaw University of Technology.

If Sunday presents a conflict, organisers are welcome to discuss alternative arrangements, including Saturday evening, 17 July 2027.

Key Dates:

- **10 December 2026** Workshop Proposal Deadline
- **1 February 2027** Acceptance Notifications & Final Programme

Ready to contribute? [Submit your workshop proposal here](#)

International Cartographic Exhibition – Registration Now Open!

The exhibition will showcase cartographic achievements from around the world, bringing together creativity, innovation and the art of mapmaking.

Each participating country or organisation is invited to appoint a representative who will coordinate exhibition arrangements, reserve display space and submit exhibit information and catalogue materials.

Once registered, representatives will receive an email with access to the exhibition submission form.

Important Deadline for representative registration and the submission of exhibition space requests and exhibit metadata: 14 January 2027

Ready to take part? [Register your exhibition representative here](#).

For exhibition guidelines and further information, visit the [ICC 2027 Exhibition page](#).

Barbara Petchenik Children's Map Competition 2027 – Call for Entries!

Inspire the next generation of cartographers!

Established by the ICA in 1993 in memory of former Vice-President Barbara Petchenik, this biennial competition organised by ICA Commission on Cartography and Children celebrates children's creativity and their unique perspectives on the world through maps.

2027 Theme: "Maps in Everyday Life"

The competition welcomes children **under 16**, with four age categories: under 6, 6–8, 9–12 and 13–15 years. Entries may be created individually or by up to three children from the same age group. We invite submissions of original, handmade artwork featuring a recognizable map or part of the world that aligns with our theme, though please note that digital artwork, graphic software, AI-generated images, digital editing, and political messages are strictly prohibited.

Deadlines at national level are determined by each country, considering that the deadline for sending the drawings to the international coordinator is **30 April 2027**

Key contacts, full competition rules, technical requirements and further information, visit the [official Children's Map Competition page](#).
